AN advertisement of Mr. UDOLPHE WOLFE, lately published, as I suppose, intended for the protection of his Schiedam Schapps against counterfeiters, his come under my observation, and being engaged in the manufacture of schiedam Schapps, were I to let it pass without notice through this medium, I might be considered among those he denominates "Pirates and Fenders of Poison;" but the immense patronage and success that has attended the sale of the article manufactured by me, and the opinion of competent indges as to its qualities as a beverage and its medical virtues, precludes the possibility of the idea that I am included among those he designs to imp gn. No doubt he feels aggrieved at the depreciation of the sale of his Schanpps which is manifest to all, since mine has been brought in competition with his. Not only have I succeed in competiting with him in quality, but the constant and increasing domand of my article, has enabled me to furnish it at a less price than he can, or does—say \$2.00 in the dozen. And furthermore, he will soon become satisfied that his caution to the citizens of the "Southern and Western States" will avail him nothing as far as I am concerned, for the character of my Schiedam Schapps is too well established in those States, to be injured by any such invidious publication.—The motive of his a ivertisement is obvious to every one, and feeling well satisfied that all such missiles thrown at me by TO THE PUBLIC OF THE UNITED STATES. The motive of his a reertisement is obvious to every one, and feeling well satisfied that all such missiles thrown at me by him will fall harmless at my feet, I will here, for the satisfication of the public, publish a copy of my Patent kight, entered in the Southern District of New York, on the 28th day

SOUTHEEN DISTRICT OF NEW YORK, S. S.
Be it remembered, That on the twenty-eighth day of December, Anno Domini, 1854, Harnard L. Simpson, of the said
District, hath deposited in this office the title of a print or label, the title of which is in the words of the following, to-wit:
Barnard L. Simpson's Aromatic Schiedam Juniper Schnappa
a superior Tonic Anti-Dispeptic Invigorating Cordial," the
right whereof he claims as author and proprietor, in conformity with an act of Congress, entitled "An Act to amend
he several Acts respecting copy rights."

Clerk of the Southern District of New York.

GEO. W. MORTON,
Clerk of the Southern District of New York.
And I take pleasure on this occasion to tender my sincers
thanks to the public in general, and to my triands in particutar, for the kind liberality with which they have patronized iar, for the kind liberality with which they have patronized me from my commencement of this enterprise; and I assure them, that I shall continue to provide them always with a genuine and superior article of Schiedam Schnapps.

June 30, "55—17.

P. S.—The word Schiedam Schnapps is derived from a town in Holland, called "Skiedam," which is celebrated as a place of extensive Juniper Plantations and numerous Distilleries of the above article. illeries of the above article. Everybody hasthe right and privilege to order the Juniper Extract (a principal ingredient of the Schnapps) from that

place, Does it not appear now poor and deceitful when U. W. is trying to make a wrong and untrue impression on the Public, saying that the word Schiedam Schnapps belongs exclusively to his article, and that all others are Counterfelts and Impost

to his article, and that all others are of the sole in-tions?

1. W. has no monopoly, neither more right for the sole im-portation of Schiedam Schunpps than anybody else; and this poor argument which he intends to continue his long practised deception on the public, shows too plain that he feels and is now aware of an important and dashing opposition.

TO THE MILLION.—READ AND JUDGE FOR YOURSELVES.—PROFESSOR WOOD'S Hair Restorative, is no doubt the most wonderful discovery of this age of progress, for it will restore permanently grey hairs to original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all Scrofula and other cutaneous eruptions, such as scald head, &c., it will cure as if by magic, nervious or periodical head ache, make the hair soft, glossy and wavey, tively his and preserve the color perfectly and the hair from falling to extreme old age. We could give the testimony of more than one hundred thousands to the truth of every word we have

written See circular and the following:

I have used Prof. O. J. Wood's Hair Restorative, and have udmired its wonderful effect. My hair was becoming as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt premacently so.

Paor O. J. Wood—Dear Sir. As you are about to manual tere extensively and vend your recently discovered thair Restorative I will state for whemsoever it may concern, that I have used it and known others to use It, that I have for several years been in the habit of using other hair restoratives, and that I find yours wastly superior to any other I know. It entirely cleanses the head from dandruff, and with one months proper use will restore any person's hair of the original youthful color and texture giving it a healthy, soft and glossy appearance, and all this without discoloring the hands that apply it, or the dress on which it drops. I would therefore recommend its use to every one desirous of having a fine color and texture of hair.

Respectfully Yours, WILSON KING.

Bedford thus:

To your inquiries I would reply that when I first commenced using Prof. Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years, and it was very him on the top of my head, and very icose, and pulled out reely, but I found that before I had used the second bottle up (which was eight weeks) my hair was entirely changed to soriginal color, (light brown) and is now free-from dandriff and quite molet. I have had my hair cut five or six times since the change and have never seen anything like white hair starting from the roots, and it is now as thick as it ever was and doe not come out at all; i has proved in my case all that I could wish or ask.

RIVER NEWS. The river declines now slowly, with 5½ feet on Harpeth Shoals. The weather during the last day past has given us quite an unexpected snow-storm, but at present indicates a clear up. The goosebone question appears to prevail in its indications of the present weather, and still indicating at least two more short tight spells before a settieg in of the real genuine spring weather. The advocates of the goose-bone appear delighted with the past cold comfort of the winter. Fallibility, however, always claims to be weather-wise when it makes a hit, and like the gamester, only reiterates its gains, omitting to keep an account of its losings. For ourself, we find that with the best astronomic calculations, and the goose bone thrown in, the best we can do is to miss, as often as hit, what the weather will actually turn out.

The steamer Scotland is expected at Clarksville this day. From the quantity of freight there for shipment, it is somewhat doubtful whether she will reach this point. The E. Howard is also looked for at Clarksville. The steamer Camberland passed Vicksburg on the 12th inst., with a good trip for this port from New Orleans. On today she will be due at Memphis, and on Tuesday next in this port, from whence she will meet with immediate despatch for the Crescent City. The J. B. Carson left Cincinnati on Monday eve-

ning last and will likely reach port on Friday night or Saturday morning.

Steamer Aleona leaves Cincinnati this day for this port.

Steamer Diamond leaves Cincinnati on Saturday night next and Louisville on Monday next for this Due from upper Cumberland this day steamers

Monticello and Alida. The steamer Eila leaves this evening at 4 P. M. for Cincinnati.

The packet at 10 A. M. for Smithland and Paducah will be the Blanche Lewis. Passengers for New Orleans, St. Louis and Louisville will find this a comfortable craft to travel out of this river on. TO COUNTRY MERCHANTS.

MY Stock of Gentlemen's Ready Made Clothing for the Spring and Summer trade is now complete embracing every variety of style and fabric to be found in the Eastern Markets.

My business being strictly and exclusively confined to the Manufacture and sale of Clothing, enables me to offer greater inducements than any other house in the city, and should alone be sufficient currentee to all who purchase Beady Made Clothing, that they can supply themselves with a much larger variety of styles and assortment of sizes, at a less price, by making their norchanes direct from sizes, at a less price, by making their purchases direct from the Manufacturer. septs ti R H. BROCKWAY. FIRST PREMIUM SEWING MACHINES

Nashville Sewing Machine Company Nos. 71 1-2 EAST SIDE OF THE PUBLIC SQUARE,

THESE Machines are now very justly considered to be the beat in use, having the advantage of all others in the simplicity of their construction, the speed and beauty of their work, and the great strength of their seam. Unlike any others in use, they form a seam with two continuous threads from ordinary speeds of cotton, slik or linen—making a knot t every stitch which prevents the work from ripping under ny circumstances whatever.

The first and highest premiums have been awarded to these Machines at all the leading Fairs throughout this country and Europe, and the inventor now rejoices in the more substantial reward of the largest patronage ever bestewed upon any Sewing Machine in Europe or America.

They are of the highest finish, and of every variety of size and style, and adapted to all the wants of the Sewing community.

and style, and adapted to all the wants of the Sewing community.

They are all secured exclusively to the proprietors by letters patent, and are free from all legal controversy. Great pains has been taken to adapt these Machines to Plantation sewing, and they are now so simple, durable and easily run and tended by any person, that they are entirely beyond competition for this work or for the manufacture of heavy or light bags, for Corn or Wheat, no machinery has ever been invented to surpass theo—any person after one hours practice can make from 400 to 700 corn sucks per day on one machine. These machines are also equally well adapted to the manufacture of all kinds of ciothing, course or fice, as well as general sewing, quitting, stitching, dec. These machines are so arranged as to make the stitch any length desired, and to sew with ease any and every seam in any garment, and the derability, regularity and beauty of finish, cannot be equaled by any work accomplished by the most skillful hands.

We shall at all times keep on hand a ull assortment of these machines, and most respectfully invite the public gen

HOW DISEASED ACTION BRCOMES ESTABLISHED AND THE BLOOD IMPURE.

A great error has long provailed in the minds of medical men, "That importity of the blood is the cause of diseased action." This is a serious mistake. It is a disturbance of the circulation, and the establishment of diseased action, that causes impurity of the blood.

The K.R. R. theory holds the truth of the above maxims, for if a person be in a state of perfect health, each strey; and vein must carry to and from the heart its allotted pertion of blood, and when any set of ressels refuse (be the cause what it may) to carry their proportion, the current of blood becomes dammed up; in other words, a congestion takes place, giving pain to a greater or less exisus. Here, then, is the beginning of diseased action, which, if not relieved, will soon run into inflammation, and the disease become established. Diseased action being once established, the blood becomes impure, and the regularity of action on the part of the liver, stin, howels, dec., is serve to be interrupted, and the general system, by sympathising with the local complaint, becomes involved in the difficulty. That this is the true state of the case, let any one call to mind his symptoms on catching cold. The local difficulty may be a sore throat, which is a congestion of the blood, amounting sometimes to an inflammation about the throat, owing to a previous deranged state of the circulation; and he will remember that his bowels become costive, his liver deranged, or his skin dry and favorish, his head stopped up, pains and sches in his bones, joints, down the back, head sches, discharge of water from the eyes and nose, with many other unpleasant and painful symptoms. Had he used Radway's Ready Reliaf when the congestion was setting in, as an application to the throat, and swallowed a dose of the flegulators, he would have broken up the congestion, and restored the regularity being again established, the impare blood is soon purified, and the circulation again equalized, and the health resto

Persons who have been troubled with chronic sore throats, tubercies in the lungs, bronchitis, or glanduiar affections, are informed that the R. R. R. Remedies will cure them of these terrible diseases on the same principle. Let the fleady Relief be applied externally on the chest and around the throat. This will effect an important and wenderfully beneficial result. It will get up a powerful counter-irritaling orce, and withdraw from the glands of the throat all congested blood that may interfere with the respiratory organs. Persons troubled with asthms, hard and difficult breathing, sharp pains when taking a long breath, will find an immediate relief after an application of Ranway's Ready Relief. In cases where the lungs are diseased, we give indeway's Resolvent. The action of this medicine resolves away the diseased deposit. It heals all uicers, and removes tubercine. LARGE ROLES IN THE NECK.

An Emigrant called upon us a few months since, who had been troubled with the disease called King's Evil. He had two very large holes in his neck, and his bead, body and legs were covered with the most disgusting and sickensing socies. We immediately placed him under the influence of the Resolvent. In six weeks from the time he called upon us every sore was healed. Not even a sore was left upon his body to remind him of the King's Evil.

This man, like thousands of other deinded persons, had thrown himself prostrated before two Emperors, four Kings, and one Quoen, to be touched by the flugers of Hoyalty, solieving that the hands of their "most ascred majestles would drive away the evil." 1, Jeptha Gardinier, of the above place, do publish, that for many years I have been afficied with Kheumetism, and on the evening of December 20th, 1855, while walking in my yard, I foil with great violence on the Ice, bruising the knee pan very badly. I further certify, that on the anove day Mr. John J. Henedict, a travelling agent of Radway & Co., arrived at this place, and hearing of my heavy fall and the terrible complaint that afflicted me, recommended me to apply Radway's Ready Heli-f, which I did, and in a very short time the pain crased, the awelling shedsed, and I mm now able to walk without the use of my cane, free from pain. I have tried several other remedies, but found no relief. In cases of extreme pain, Radway's Ready Relief is far preferable to all other remedies. If any one doubts the truth of this certificate, let them call on me at my residence, or write to me at Dreadan, Team, and I will give them full information.

For years Mr. Gardinier had suffered the torturing pains of Rheumatism. He was mable to walk without the sid of a stick. On the 20th of December he first tried the R. R. Relief. On the 31st be could walk without aid and free from pain. Let all who are crippled or hed ridden think of this.
